# mix + match wedding themes

---

Here are three easy ways to create a beautiful theme for your wedding. Choose a color scheme, then combine it with a technique to personalize and coordinate all the elements of your wedding, including invitations, favors, and place cards.

## Ivory and Gold + Stamping

Stamped flourishes and monograms, plus a touch of patterned paper, create an elegant look. Our gold bow stickers add a final coordinating detail.

### SHOPPING LIST

## Pink Cosmos + Punching

Cosmos flowers create a playful and festive mood. In this pretty pink ensemble, cosmos shapes are punched to embellish invitations, thank-you cards, and favors. A piece of pink craftstock with the negative shapes punched out echoes the die-cut invitation envelope and becomes a simple wrap for a votive candle.
